# Welcome to Oakwood Glazing

Thank you for taking the time to learn more about our company and our products.

In these pages, you will find beautiful photographs of new construction passive homes, retrofits and large scale developments - all of which speak for themselves as they display our work. There is also a large portfolio on our website [www.oakwoodglazing.com](http://www.oakwoodglazing.com).

We encourage you to come to our showrooms in Charlestown, Co. Mayo (F12 V5Y8) or Maynooth, Co. Kildare (W23 HX92). Seeing is believing.

We have been installing windows and doors since 1979 - and it all started with a humble toolbox. Our reputation goes before us: personal commitment, respect and care for both the homeowner and home from the start to completion of each project.

We hope you enjoy this brochure and see new ideas and suggestions. Our experienced staff are happy to help you and will recommend the most up to date, energy efficient, secure, durable and elegant products for any size project.

# A Touch of Style

# Midleton Door

Slate Grey

# Kylemore Door

Slate Grey

The difference between our Midleton and Kylemore door can be seen in the glass units. The three glass parts that make up the Midleton door are unique, with the central one being somewhat larger than the other two.

Our Kylemore door has three square glass panels with the same dimensions.

# Glenstall Door

Grey  
Blue

# Castledermot Door

Our Glenstall and Castledermot composite doors are good alternatives for a back door providing a large amount of light through the glass unit.

## Versatile Designs

## PVC Doors

Slate Grey

Slate Grey

Our uPVC and composite doors provide functional and secure access for any home with their safety glass and high security hook bolt locks.

Three samples of uPVC single doors in cream colour, each with different glazing choice. The middle door is shown as a stable door with a glass element that can be opened like a window.

# PVC French Doors

Our open out French doors will meet the needs of modern life, whether you need to replace an existing patio door or breathe new life into an area of your house. These uPVC doors come in a variety of colours and double or triple glazing options. With high security hook bolt locks and internal glazing, our doors provide the ultimate in weatherproofing and insulation, making you feel safe and secure in your house.
